University of Idaho - Volunteer Position Description - as of 8/29/16

This form documents the duties of an authorized volunteer. The form should be completed by a university employee normally authorized to recruit and offer employment (i.e., program director, department chair). The university intends to offer general liability for claims which arise from actions performed on behalf of the university by its volunteers. If volunteers are authorized to drive a vehicle titled to the university, the university intends to offer auto coverage for claims arising from the operation of university owned vehicles. The university DOES NOT COVER injuries to the volunteers themselves or to the personal vehicles of the volunteers. Volunteers should use their personal medical benefits and personal auto coverage for injuries to themselves and to their personal autos. Volunteers are NOT COVERED for Workers Compensation coverage. For additional information, see APM 05.11. (Revised 8/29/16)
